Alorica Announces 150 Additional Job Openings in Terre Haute

October 27, 2008 - Terre Haute, IN – Leading customer service management firm Alorica Inc. today announced an increase in the target number of jobs for its inbound customer service center in Terre Haute.

The center originally planned to hire more than 450 positions by the end of the 2008 calendar year, but has now met that goal ahead of projection. This means the addition of 150 more jobs nearly 1 quarter sooner than expected. Applications are being accepted onsite now at 1800 Fort Harrison Road, Suite 23, Terre Haute, Indiana.

"Given current global economic conditions, Alorica's announcement of 150 additional jobs for Terre Haute is fantastic news," said Steve Witt, President of the Terre Haute Economic Development Corporation. "This is yet another example of how our local workforce is helping many world-class companies, like Alorica, meet their business objectives."

Alorica's newest site in Terre Haute began taking calls in June 2008 to support customers of a Fortune 500 company.

"Our incredible growth is in line with Alorica's history of expansion, thanks to the great workforce Terre Haute has to offer," stated Travis Vickers, Alorica's Terre Haute site director. "The energetic people here at the call center thrive at keeping the customers who call in happy, while making Alorica a fun, motivating place to work."

Immediate interviews are being offered when applicants apply in person at the Terre Haute facility. In addition, Alorica will also be accepting applications through their website at www.AloricaJobs.com.

About Alorica Inc.
